

## **Class 4123 Graduated 24 Oct. 1941**

**There are 4 Student Marines in photo with one standing at left of Admin & Inst. front row. R.D. Case has written changes on several of these personnel to where I am not sure about the Marines or 3 white hats immediately back and to the right of the 4 marines in row 2. Will list them as indicated on CS back of picture, unless R.D. Case responds to my letter of 10 Sep. 1991, to show otherwise. Received Answer 11 Oct. 91 from R. D. Case.**

**Case sent me a dry process copy of HIS Class photo. That copy is DIFFERENT than the photo we have in this binder. The Marines are standing in different positions relative to the A&I personnel. Case Material shows all Marines in Class 23 on FRONT Row. The far left Marine is the tallest and according to Case photo and NWSA photo that man is Brundage, Ira S. Comparing the two different photographs I believe has placed the men in correct position in NWSA Photo where Row 2 is now reflected as this file shows them.**
