

Class 4337??

Holland I. Payne visited my home briefly 31 Oct. 1991. He has a copy of this photograph. Dated in pencil as Feb. 1945 and is a picture for the entire training command as suspected. #37 probably includes what was originally marked Class 4559 but is in this index as Class 4459. Payne said even the Maintenance people were included in the picture. I will not change the numbering system to this as it is now indicated 4337. The Master Number 37 will be retained for simplicity. The first 36 of the 38 setting A&I Are:
