He had a brain tumor removed in Aug. 1991. 12 Nov. 1991 Dave spent another 13 hours in surgery to have removed that part which could not be taken out in Aug. At his home 11 Dec. 1991, Dave made partial ID of his part of class 6547.

AGCS John W. Brennen USNR helped ID others 20 Dec. 1991. He wrote about the Kneeling two "The best that I remember is that this AGC & AG1 showed up on our first day of school and for the photo. Never saw them in between. The NCO's who were directly in charge as I recall were SSgt. Virgil Herd USMC and AG1 Smith CG 547 Port had all contact with them"

Note: Brennen, John W. AGCS (USNR) is not listed in any of the B school classes. It was not mandatory in the Reserve forces to attend B school before making AGC at the time Brennen made Chief.
