The FWC has changed quite a bit today. In May 1953, when I first arrived, the FWC had just moved from a tunnel. Don't forget, the Japan-U.S. Peace Treaty didn't go into effect until April 28, 1952 (the official end of the Occupation), and the Korean War didn't end until July 27, 1953. The ASD was on the third floor of the FWC. The main working area—plotting, crypto, etc. —was on the second floor.
