

ROTA REUNION

Ever Stationed in Rota Spain? Mark your calendars we're planning a "FERIA" in Tennessee!

Were you stationed at FWC/NOCC/NEMOC Rota, Spain? AG's, Officers, Civilians and families are invited! We want you to join us for a reunion. The reunion will be held 24-27 June, 2016 in the Knoxville, TN area.

The results of a survey and comments on Facebook have shown real interest in having a get together and we want to invite NWSA members to join the group and attend the reunion. Final details are still being developed but participants can expect several planned events with Spanish Food and music themes as well as all the things available in the beautiful Knoxville area. With the Great Smoky Mountains and numerous national and state parks, Dollywood Amusement Park, a vibrant downtown, there is sure to be something for everyone to enjoy.

Of course the best part will be seeing old friends and reliving our shared experiences from duty station that many describe as the best they had while serving in the Navy's Meteorology and Oceanography community .

We hope hotel and events details will be completed by October 2015 and we will publish them on Facebook and on the reunion website. For more information:
